## Latest Information from CAPCA

### 2024 ANNOUNCEMENTS

CAPCA's purpose for decades has been to serve as a leader in the evolution of the pest management industry through the communication of reliable information. CAPCA has taken substantial steps over the last few years to bring more focused communications to PCAs beyond the flagship Adviser publication – from Advocacy updates to field research and anything in between that impacts your license. We are listening to you as members, overwhelmed by your inboxes and the stream of information when you are busy but want to stay informed. As a result, 2024 brings fresh changes as CAPCA launches its own podcast – Advice for the Adviser – led by CAPCA team members Alexis Silveira and Patrick Dosier. Join them in their **first episode** as they review new 2024 regulations for your license and discuss the CDFA Grant opportunity.

We are also marking a year of the CAPCA monthly newsletter delivered to our members to bring together CAPCA news, resources, and information in one dependable email. With the soft launch of the newsletter in 2023, the CAPCA staff and leadership started to review member feedback, member benefits and how to streamline what matters most to members under the CAPCA
